# NUCLEAR SCIENCE ABSTRACTS

*A semimonthly publication of the USAEC Office of Information Services, John A. Harris, Director.  
Published by the USAEC Technical Information Center, Robert L. Shannon, Manager.*

*Nuclear Science Abstracts* provides the only comprehensive abstracting and indexing coverage of the international nuclear science literature. It covers scientific and technical reports of the U. S. Atomic Energy Commission and its contractors, other U. S. Government agencies, other governments, universities, and industrial and research organizations. In addition, books, conference proceedings, individual conference papers, patents, and journal literature on a worldwide basis are abstracted and indexed. Each issue of *Nuclear Science Abstracts* includes four indexes: subject, personal author, corporate author, and report number.

The following organizations scan and abstract the nuclear science literature in their respective countries:

Atomic Energy of Canada Limited  
Australian Atomic Energy Commission  
Danish Atomic Energy Commission  
Finnish Atomic Energy Commission  
French Atomic Energy Commission  
Japan Atomic Energy Bureau—Atomic Energy  
Research Institute

Institut for Atomenergi (Norway)  
Aktiebolaget Atomenergi (Sweden)  
United Kingdom Atomic Energy Authority  
Zentralstelle für Atomkernenergie-Dokumentation  
(West Germany)

Numerous organizations, societies, and publishers throughout the world provide *Nuclear Science Abstracts* with advance page-proof copy of their publications.

A list of the journals scanned regularly and the abbreviations used appears in the January 15 issue of *Nuclear Science Abstracts* and is supplemented in the July issue. The January 15 issue also describes the scope and arrangement of the subject matter covered in *Nuclear Science Abstracts*. The subject matter covered is also described in TID-4552, *Subject Scope of Nuclear Science Abstracts*, available free from the USAEC Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830. An outline of the subject categories appears in the Contents of each issue.

## HOW TO OBTAIN NUCLEAR SCIENCE ABSTRACTS

*Nuclear Science Abstracts* is available to the public on a subscription basis from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

# PERSONAL AUTHOR INDEX

Authors' names are indexed in the form appearing in the abstracted publication. Each entry under an author's name gives the publication title and the NSA volume and abstract numbers. Report numbers, where applicable, are given in parentheses at the end of the entry.

Because of problems involved in the mechanical preparation of this index, all accent marks are omitted. The following changes in spelling have been introduced to reduce some of the confusion which might result from omitting the accents:

Germanic	ä	appears as ae
Germanic	ö	oe
Germanic	ü	ue
Scandinavian	ø	oe
